

Econometrics and Statistics

CALL FOR PAPERS

ANNALS OF COMPUTATIONAL AND FINANCIAL ECONOMETRICS

<http://www.elsevier.com/locate/ecosta>

We are inviting submissions for the 4th issue of the Annals of Computational and Financial Econometrics (CFE).

The Annals of Computational and Financial Econometrics is published as a supplement to the journal of Econometrics and Statistics (EcoSta) to serve as an outlet for research papers in computational econometrics and financial econometrics. Authors submitting a paper to EcoSta may request that it be considered for inclusion in the Annals of CFE. The first three issues of the Annals of Computational and Financial Econometrics have been published in Computational Statistics & Data Analysis.

Submissions for the Annals should contain both a computational and an econometric or financial-econometric component. There is no deadline for submissions. Papers can be submitted at any time; and, when they have been received, they will enter the editorial system immediately. Submissions will be refereed according to standard procedures for Econometrics and Statistics. Information about the journal can be found at <http://www.elsevier.com/locate/ecosta> and <http://www.CFEnetwork.org/ecosta>.

All submissions must contain original unpublished work not being considered for publication elsewhere. Please submit your paper electronically using the Elsevier Editorial System and selecting article type *Annals of Computational and Financial Econometrics*: <http://ees.elsevier.com/ecosta>.

For further information please send an email to: editor@econometricsandstatistics.org

Editorial Board of the Annals of CFE

Editors: Erricos J. Kontoghiorghes and Herman K. Van Dijk.
